

ARNOLD
RAHMENMANUFAKTUR

«bexio is my business heart. It is the tool for all the administration - my trustee also works with it.»
Daniel Arnold of Arnold Rahmenmanufaktur.

The business

Arnold Rahmenmanufaktur enriches the lives of its customers with passion and emotion through hand-made picture frames. Daniel Arnold always concentrates more on the object than on the frame. For him, solutions are important that do not add anything to an object, but rather enhance its effect. «Less frame is more - and increases the customers' joy about the end result all the more», says Daniel Arnold.

Arnold Rahmenmanufaktur and bexio

Since its founding in 2015, the Aargau-based company has relied on bexio business software. «The software makes my administration much easier for me. Without such software it would be much more complicated», Daniel Arnold is certain. bexio's performance convinced him from the beginning, so he tested and evaluated bexio extensively. «I was quickly convinced of the possibilities.»
